Young Credit Union Professionals **Network**
part of *Mid-America Credit Union Association*

Who We Are

Young Credit Union Professional (YCUP) Network is dedicated to increasing social, professional, and service-related opportunities for young credit union professionals in North and South Dakota. Participants in the YCUP Network must be between 18 to 35 years of age.

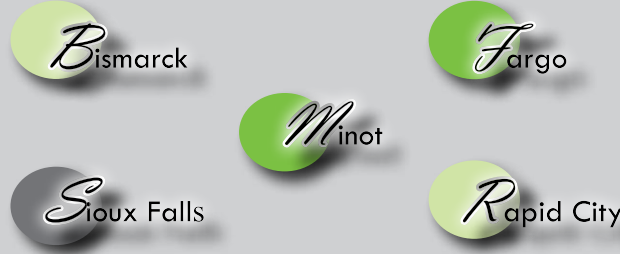

The primary goals of this Network are to:

- promote the credit union philosophy of “people helping people.”
- create professional opportunities for those in the Network.
- engage Network members in their community.
- provide a voice for young professionals in the credit union industry.

We feel it is vital for us to support young people within the credit union movement, and to create opportunities for them to excel.

How We Are Organized

The YCUP Network is set up in regions. Each region holds its own activities. Some YCUP Network events combine all regions. We currently operate under the following five regions:

Please note: YCUP Network professionals can attend any region’s activities. YCUP Network professionals are not limited to only one region. We have the various regions so all young credit union professionals in North and South Dakota can be involved without extensive travel.
